-CJR @ Pioneer Club	2500 s.f.	Las Vegas, Nevada
-CJR @ Buffalo & Spring Mtn.	3044 s.f.	Las Vegas, Nevada

**Timeliness, Accuracy, and Budget** are the critical watchwords in the provision of architectural services for the "Carl's Jr. Restaurant" facilities. GGW Architect Studios focuses on these watchwords when providing architectural services for the preparation and delivery of drawings for the processing and construction of new Carl's Jr. Restaurant installations.

**Timeliness** to us means quick turnaround for expediting all elements of the project development process to accommodate the franchisee's needs. Timeliness means within (5) days of authorization a site plan, prototype floor plan, and exterior elevations are ready for necessary planning, zoning, and site procurement approvals. Final construction plans, elevations, details, specifications, and building engineering, within (3) weeks.

**Accuracy** results from continuous study, management, and update of prototype information provided by Carl Karcher Enterprises from which the designs and documents for your specific project are prepared. Accuracy also results from contacting local officials, to identify local variables, and from coordinating site specific civil engineering concerns before they occur.

**Budget**, by our definition, means that where there are choices to be made in terms of construction systems, materials selections, and construction related details, GGW Architect Studios provides positive review, research, and analysis to insure the maximum value for the least cost.

**Gary Guy Wilson Architect Studios** has an understanding for "Fast-Food Restaurant" franchisees and their needs and has an energy and dedication to help you succeed.
