Concept Site Plans: "CSP"

SERVICES

When you or your client asks the question, "What can I do with my property?", the answer is simple, a "Concept Site Plan". For as little as \$1500. our "Concept Site Plan" will provide the "Answers" to:

- What is the Highest & Best Use?
- What is the Allowable Building Area?
- What is the Maximum Square Footage?
- What is the Parking Required?
- What is the Current/Required Zoning?

Contact Les W. Travis at (702) 876-0668

What are you doing as an Architectural firm to address the "Green" issues that potentially threaten our environment?

Ask The Architect

We hear so much conflicting information today that it is difficult to determine what the long-term effects are. However, we do know for certain that many natural resources are being taxed. In response, we support The LEED (Leadership in Energy and Environmental Design) Green Building Rating System that is a voluntary, consensus-based national standard for developing high-performance, sustainable buildings.

LEED was created to establish a common standard of measurement, promote integrated, whole-building design practices, recognize environmental leadership, stimulate green competition, raise consumer awareness, and transform the building market. Jason Giddy, Job Captain for GGWStudios, is currently working closely with this organization to obtain his certification. We believe that through these organized efforts, we can make a difference.

SPOTLIGHT GGWArchitects²

After over 33 years as Gary Guy Wilson, AIA, Architect Studios., GGWArchitects² was born—the result of an intense need for a skilled, specialized Architectural Team delivering creative, relevant, practical, and timely solutions for the Public Sector including Educational Facilities, Utilities, and Federal, State, and Local Governments. Company President and Principal Architect, Gary Guy Wilson, A.I.A. created the new "studio" in October, 2002.

As an expert resource in the Public Sector Marketplace, GGWArchitects² builds client relationships around listening, hearing, and remaining flexible to the needs of the client. An unmatched kind of service is brought to every phase of the project from inception to completion. "Relevant Design Service", the mission of this specialized studio, is exemplified by every member of the team. We aren't satisfied until the client is satisfied!
