Bachelor of Science, Utah State University
Majored in Civil and Environmental Engineering
40-Hour Hazardous Waste Site Health and Safety Course

Registrations:

Professional Engineer, Nevada #13121
Professional Engineer, Arizona #33654
Certified Environmental Manager, Nevada #1593

Professional Credentials:

After graduating from Utah State University in 1993, with a Bachelor of Science degree in Civil & Environmental Engineering, Brandon A. Potts accepted an invitation in Las Vegas for a position with VTN, of Nevada's "Land Development Department". Shortly thereafter, Mr. Potts accepted an offer from Broadbent & Associates, where he spent the next five years building their "Civil/C.E.M. Team". It was from this experience that Brandon A. Potts, P.E./C.E.M., elected to strike out on his own to create a company more in tune with the needs and requirements of the Client.

His dream became reality, when in October, 1998 CivilWorksInc., was established to service Southern Nevada and the Southwest Region including Northern Arizona, Southern California, Northern Nevada, and Utah, through the consistent delivery of "Engineering with *"sensible"* solutions tailored to your *"specific"* needs". With offices headquartered at 7625 South Dean Martin Dr., Suite #101, Las Vegas, Nevada, our creative/technical team consists of some of the industry's top professionals, experienced in customer service, business administration, technical CAD operations, as well as Civil & Environmental Engineering Design and Planning.

Through Brandon's astute ability to seek, sign, and retain clients, CivilWorksInc has produced hundreds of projects for satisfied clients, including:
